212

Elevate your boating experience with a boat designed for total comfort. Every aspect of the 212 has been carefully crafted to make it perfect for both short trips and thrilling water sports adventures.

202

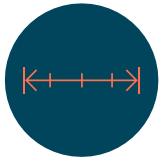

A speedboat with a Mercury Pro XS outboard motor is shown on a lake. The boat is white with a black top and has a black outboard motor with 'MERCURY PRO XS' written on it. The background shows a rocky shoreline with green trees and a clear blue sky. The text 'Bring your dream boat to life with custom features' is overlaid in white on the image.

The 212 is designed for total comfort, featuring an ergonomic cockpit that ensures ease and enjoyment for all passengers. The functional stern platform enhances every detail of your time on board, providing convenient access and additional space for leisure activities. Every aspect of the 212 is thoughtfully crafted to elevate your boating experience, making it perfect for both short trips and exciting water sports adventures.

COCKPIT

Perfect for family enjoyment

Enjoy sunny days in a cockpit designed for comfort and convenience, featuring swivel seats and the option for a center table, allowing for easy interaction and an enhanced experience for everyone on board.

BOW

Designed for daytime bliss

The bow boasts a functional and ergonomic layout, featuring chaise-shaped seats for optimal relaxation, optional sound speakers for entertainment, and convenient cup holders, making it the perfect spot to unwind and enjoy your day on the water.

STERN

Relax in style

Equipped with a foldable sundeck and ample space, it offers the ideal setting for sunbathing and enjoying the water. With thoughtful details like cup holders and storage compartments, every moment on board is designed for your comfort and enjoyment.

DESIGN

Sporty appearance for exciting adventures

The design of the 212 radiates energy and excitement, capturing the essence of adventure. Sporty accents, a hallmark of the Granfort line, elevate its appearance and evoke a sense of exhilaration on the water.

HELM STATION

Seamless navigation control

The helm station seamlessly integrates into the cockpit, featuring an individual, retractable, and swiveling pilot seat. With a modern and sporty control panel boasting high-standard finishes, including the Italian steering wheel as standard, navigating with comfort and speed has never been easier.
